

# REAR VIEW CAMERA CONNECTION CABLE

to Renault / Dacia / Opel MediaNav

ID: 859366

# EXAMPLES OF STANDARD DEVICES FOR WHICH CABLE IS SUITABLE

*The photo is provided for reference only. Appearance of the control panel and monitor may slightly differ depending on the car model.*

# DESCRIPTION

Cable for rear view camera connection to the OEM monitor Media Nav/Media Nav Evolution in Renault, Opel and Dacia. The cable offers Plug&Play installation of the aftermarket rear view camera without damaging the car wires.

Image from the rear view camera will automatically be displayed on the screen when reversing. The device is connected to the 24 pin socket (as shown in the connection diagram). After connection all OEM functions which work using this socket are preserved due to transit type of connection.

**Note!** Input for rear view camera should be activated by Renault dealer or using alternative Menaco or Menavrus firmware.

# COMPATIBILITY
