

VIDEO CABLE

for Lexus with GEN7/GEN8/GEN9 Media-Navigation System

ID: 868117

DESCRIPTION

This cable allows you to arrange audio and video input in Lexus cars with GEN7/GEN8/GEN9 media-navigation system without using a video interface. After the cable connection «AV input» icon is automatically activated in the monitor and video in motion is unlocked. Video in motion is activated for both devices connected via this cable and the OEM DVD player. Additional cable is equipped with +12 V and -12 V wires for powering up connected devices. As a result you receive fully functional AV input with possibility to connect composite video signal PAL/NTSC and also linear stereo signal.

One of the biggest advantages of this cable is that it can be a full substitute for more expensive video interfaces and/or adapters.

Thus you will be able to connect the video device, e.g. HD player, Android box, smartphone mirroring adapter or TV receiver to the OEM monitor without using the video interface. All OEM functions of the monitor will work in the same way as before.

The cable is connected behind the main media box, where the radio receiver is installed. Both 59-pin and 16-pin cables must be connected.

Main features

- Connection of additional video sources without using a video interface
- Fast and simple Plug&Play connection
- Fully functional AV input
- Car warranty is preserved

COMPATIBILITY

Model	Model years		System / Monitor
	From	To	
CT200h	2012	2017	GEN7, GEN8, GEN9
GS F	2016	2018	GEN9
GS250	2013		GEN7, GEN8, GEN9
GS350			
GS450h			
IS200t	2016		GEN9
IS250	2013		GEN7, GEN8, GEN9
IS250C			
IS350			
IS350C			
LS460			
LS600h	2016		GEN9
LX450			
LX570	2012		GEN7, GEN9
NX200t	2016		GEN9
NX300h			
RC F			
RC200t			
RC250			

Model	Model years		System / Monitor
	From	To	
RC350	2016	2018	GEN9
RX350	2013		GEN7, GEN9
RX450h			

Note! ES series cars of 2012-2018 MY are not supported!

Note! Adjust image settings in the OEM media system menu after the cables were connected:

1. Color system: PAL/NTSC.
2. Output video signal aspect ratio: 4:3, 16:9, 16:10.
3. Image brightness and contrast.

The photo is provided for reference only. Appearance of the control panel and monitor may slightly differ depending on the car model.
