ADVANTAGES

Engineers from the GermesLab team have developed a simple, affordable and easy-to-install solution – special AV cables that allow you to connect additional video sources, for example, an HD player or a TV receiver, to the OEM monitor without a video interface. Moreover, you don't need to cut the car wiring so you have virtually no chance to damage it. Consequently, there will be no warranty issues.

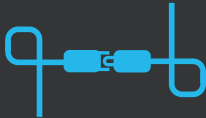

All OEM functions continue working as they did before installation.

Fast and easy
installation

Plug&Play
connection

No damage to OEM car
wiring

All OEM functions continue working
as they did before installation

No risk of voiding your car
warranty

Less expensive than a video
interface

WE ARE OFFERING CABLES FOR THE FOLLOWING CAR BRANDS:

Audi

Citroën

Ford

Jaguar

Land Rover

Lexus

Mercedes-Benz

Peugeot

Porsche

Scion

Toyota

Volkswagen

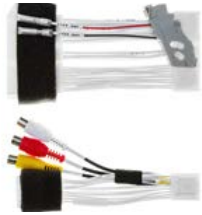

Volvo

We are constantly updating the compatibility list. For full information regarding compatible car brands and models, go to page 6.

Video cable list

ID	Photo	Name
843116		Video Cable for Toyota Touch 2 / Entune / Link Monitors
858505		Video Cable for Toyota Touch, Scion Bespoke Monitors
859794		Video Cable for Toyota Aygo, Citroen C1 and Peugeot 108 with X-Touch / X-Nav Monitors
863421		Universal Fakra RCA Video and Camera Connection Cable
866319		New! Video Cable for Lexus with GEN8 13CY/15CY EU Media-Navigation System

ID	Photo	Name
868117		Video Cable for Toyota/Lexus with GEN7/GEN8/GEN9 Media-Navigation System
883691		Video Cable for Toyota Land Cruiser with GEN7/GEN9 Media-Navigation System

The compatibility list

Brand	Model	Model years (from)	Model years (to)	System	Additional compatibility	AV cable model ID
Audi				2G, 3G, 3G Plus	TV receiver with PAL signal format	863421
Citroen	C1	2015	-	X-Touch, X-Nav	28 pin socket on the monitor for cable connection	859794
